

**Massachusetts Artists  
Leaders Coalition**

**Coalition Principles**

Massachusetts Artists Leaders Coalition (MALC), its meetings, and connected working groups are designed to bring together artists leaders of all disciplines and artist(s) run organizations, initiatives, and businesses around key issues facing Massachusetts artists working in all disciplines. Though participants may have different perspectives on how best to address the issues facing our community, we are all committed to improving the social and economic position of all Massachusetts artists. The overall goal is to empower our community, support our artists leaders, and to mentor new artists leaders. We want to ensure that artists are at the policy making table.

**Membership for MALC** is FREE & open to Massachusetts individual artists of all disciplines (visual, performing, literary, etc.) and to Massachusetts artist(s) run organizations, businesses and initiatives (artist(s) run means the following — for those with a board structure the majority of the governing board must be comprised of working artists and for a business/organization without a governing board structure — it must be run by an artist or artists).
